

Thank you!

Mehmet Serhat ABA — Portfolio Development Phase

Hello Dear Visitor / Technology Leader!
I am currently developing this portfolio website from scratch, learning React on my own. My refactoring processes are ongoing to make the code architecture as clean as possible.

My real and up-to-date CV will be located right here on this button very soon!
In the meantime, if you want to review my progress, the source code of this site, and the regular commits I make, you can check out my GitHub account: 
[<https://github.com/DevSerhat0/>]
See you in the code review!
